Education

KIET Group of Institutions [AKTU]

B.Tech in Computer Science and Engineering, CGPA: 8.5*

Oct. 2023 – July 2027*

Delhi NCR, Ghaziabad

KGDS SVM [CBSE]

Intermediate, 84%

Apr. 2021 – July 2023

Ghaziabad, Uttar Pradesh

KGDS SVM [CBSE]

High School, 88.2%

Mar. 2019 – Mar. 2021

Ghaziabad, Uttar Pradesh

Projects

The Final Transfer | React, Node.js, Firebase, Encryption

Jan 2026 – Present

- * Architected a secure digital legacy management system as a **Full-Stack Developer**, implementing end-to-end encryption for sensitive data transfers and automated beneficiary notifications.
- * Formulated and integrated a robust system workflow using Firebase for real-time data synchronization and secure file storage, guaranteeing 99.9% data integrity.

Park-Kar -Smart Parking Solution | Html5, Tailwind Css, Firebase

(Nov 2025)

- * Overview: Engineered a smart parking solution to alleviate urban congestion, facilitating instant booking of verified spaces and streamlining provider management. Integrated Google Maps API to provide precise navigation and geolocation services for users.
- * Real-Time Parking Availability, AI-Based Dynamic Pricing, Verified Parking Providers, Provider Management Dashboard, Support for EV Charging Spots

VansaVriksh | React, Node.js, Firebase, Cloud Storage

March 2026 – Present

- * **Conceptualized** and **developed** a genealogical archiving platform to **digitize** and preserve centuries-old traditional Indian ancestral records (Bahis).
- * **Engineered** a secure cloud-based architecture to **archive** and verify historical data, **alleviating** the risk of physical record degradation.
- * **Designed** an intuitive interface to **empower** traditional genealogists (Bhaatths) to **systematize** ancestral lineages and permanently **secure** copper plate records.

CIVIC-SNAP — Civic Issue Reporting Solution | MERN Stack

Aug 2025

- * Designed a **responsive full-stack platform** for real-time civic issue reporting, allowing user to submit, report, manage complains about daily life civic issues.
- * Sometimes reporting takes time and actions not properly taken, our system provide easy and transparency to system. Reduced reporting time by **32%** and costs by **60%**.

Certifications and Achievements

Networking Essentials [Cisco Networking Academy]

April 2026

Skills: Ethernet, IPv4 & IPv6 Addressing, Network Layer Protocols, Protocols Standards

Google Cybersecurity Professional Certificate [Coursera]

March – Dec 2024

Skills: Foundations of Cybersecurity, Network Security, Linux & SQL, Detection & Response

Google AI Essentials [Coursera]

Dec 17, 2024

Skills: Generative AI, Large Language Models (LLMs), Artificial Intelligence (AI), Prompt Design

Technical Skills

Languages: JavaScript, Java, C, HTML, CSS, Python, Sql

Frameworks/Libraries: ReactJS, TypeScript, NextJS, Node.js, Express, Tailwind,

Databases: MongoDB, firebase

Tools/Technologies: GitHub, Git, AWS, REST API, VS Code, IntelliJ, Eclipse, Colab

Cybersecurity: Linux, Nmap, Wireshark, SEToolkit, Ethical Hacking tools

Positions of Responsibility

Google Developer Group (GDG) [KIET, Ghaziabad]

July 2024 – Present

Event Lead & Web Development Coordinator

Ghaziabad, Uttar Pradesh

- * **Mentored** junior developers in full-stack engineering while **guiding** technical workshops to **enhance** community expertise in modern frameworks.
- * **Spearheaded** national-level hackathons including **IEEE-SSH 2024** and **SprintHacks 3.0** for **1000+** participants; **delegated** tasks to 20+ members and **coordinated** judge logistics.
- * **Conceptualized** and **administered** **ICAC 2026**, a Data Structure and Algorithm contest; **facilitated** engagement for **150+** teams and **mediated** communication between experts and participants.

Center of Cybersecurity [KIET, Ghaziabad]

Oct. 2023 – July 2025

Member

Ghaziabad, Uttar Pradesh

- * **Researched** network security and cryptographic protocols; **executed** hands-on practicals in secure system architecture and peer-to-peer learning.
- * **Competed** in CTFs and Null Chapter workshops to **identify** vulnerabilities and **enhance** technical proficiency in defensive security.

Achievements

- * **Attained** Top 50 standing in **Graphathon 3.0(2026)**, a 72-hour national-level hackathon at Graphic Era University, Dehradun, among hundreds of competing teams.
- * **Eclipsed** competition to be recognized as a **Top 10 Finalist** at **Data Verse 2025**; **presented** an innovative full-stack solution addressing mental health challenges.
- * **Earned** the **Google Solution Challenge 2025 Participation Badge** for **generating** an AI-driven agricultural platform; **demonstrated** project impact at **Innotech**.
